## Learn To Play Like The Pros with "Zen And The Art Of Frisbee® Freestyle"

by Dave Lewis

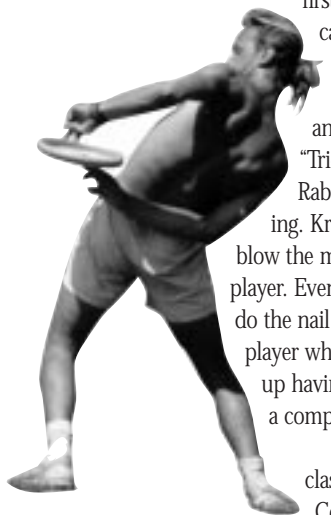

**"Z**en and The Art Of Frisbee® Freestyle," the new instructional video from the FPA and Pat Rabdau, is finally ready for the public.

A whopping 1 hour and 17 minutes, the video is brought to you care of New York City's own Pat Rabdau, Krae Van Sickle and Spencer Bradley. Rabdau shot it, wrote it, edited and produced it, and Krae Van Sickle and Spencer Bradley star.

The video follows Spencer Bradley over the course of a year as he learns from Freestyle legend Krae Van Sickle. Spencer, seeing all the cool moves of the players in Central Park, wants to learn the nail delay first and get down to business, but Krae takes him through the fundamentals first—a large variety of throws and catches from the basic to the most advanced.

The video is very well done and easy to follow. We learn the "Trick to the Trick" for each skill, and Rabdau's pacing keeps things interesting. Krae pulls off some moves that will blow the mind of even the most advanced player. Eventually, Krae demonstrates how to do the nail delay, air brushing and rolls. A player who learns from this video will end up having a lot of fun freestyling and have a complete and well-rounded game.

Along the way Rabdau edits in classic tournament footage of The Coloradicals and other legendary

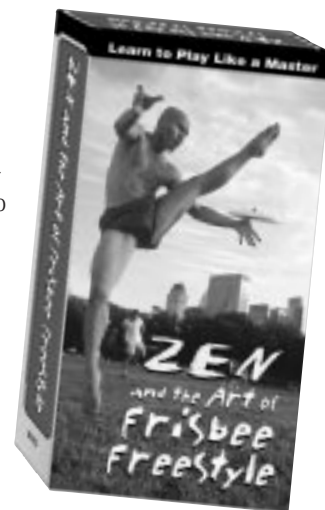

teams and players, as well as the mind blowing "Joey File" — a two minute sequence of Joey Hudoklin getting hein at Palm Park in Santa Barbara. The "Joey File" was so amazing that I had to replay it about eight or nine times before I could move on.

I'm not exaggerating!

There is also plenty of recent footage a multitude of freestylers getting hot in Central Park.

"Zen and the Art Of Frisbee Freestyle" is great as an introduction to the sport for the beginning Frisbee player or for an intermediate player who wants to learn the tricks of the trade. Even the pros can learn a thing or two. There were some moves in here I had personally never even seen before. It's a fantastic learning tool that reveals the secrets of freestyle. ●

**Note:** The video is now available from the FPA (e-mail: [videos@freestyledisc.org](mailto:videos@freestyledisc.org) for info), Wright Life (800-321-8833, <http://www.wrightlife.com/freestyle.html>) and Discovering the World (714-522-2202, <http://www.dtworld.com>). All FPA proceeds will be reinvested in the sport of freestyle and will help the FPA recoup the several thousand dollar cost of producing the video.

## FPA Forum

The FPA Forum is published quarterly by the Freestyle Players Association (FPA). The FPA is an organization dedicated to the growth of freestyle disc play as a lifetime recreation and a competitive sport.

## Judging Corner

By Judging Director Mike Reid

Well, everybody, since I took office January 1, a few things have happened. Larry and I set up the Judging Page, watched it stagnate from lack of participation, and then enlisted Tommy to help keep things up to date. I stress that now is the time to send in your ideas. Now we have an archive where any and all ideas can be written down, commented on, stored and accessed for future reference.

The Judging Page will be instrumental in influencing future judging system changes. On the page, you will find all official committee communication as well as member comments. People in favor of change as well as the status

quo should take the opportunity to share their views.

In search of better judging, the Committee is also working on ideas for education tools and on a list of judging qualifications. The system certainly isn't the only problem, judging is hard and most of us lack at least some skills in a category. You can read the preliminary emails and add in suggestions via the Judging Page.

I don't know how many changes we will be able to implement by Santa Cruz FPA 1999, but certainly Seattle FPA Worlds 2000 will be different than last year. The issues currently being discussed are—time vs possession, related difficulty and execution, paid judging, judging qualifications, judge education, routine time limits, and inclusion of alternate (amateur/junior) divisions at events. Again, I encourage you all to participate in this process. The more ideas we have, the better off we'll be. (Check [www.freestyledisc.org](http://www.freestyledisc.org) or e-mail: [info@freestyledisc.org](mailto:info@freestyledisc.org) for url location.) ●

## Frisbee on the RISE. . .

By Jamie Chantiles

What a great time to be a Freestyler! Years ago we had no one to show us how... Those would could, or would not. . . Those that wanted to learn had to work alone. . . Where is the Flying Disc Institute one can register for, to learn the secrets of the Masters? I had seen a white CPI advertising a place in NYC, but when I showed up there was a note on the door that simply said: Gone Jammin'.

What a great time to be a Freestyler... All you have to do is hit the road, crash on someone's couch, and keep spreading the ever improving JAM! Nowadays it seems like an open clinic wherever we go. Sure the performance is important, but the chance to practice with people who live in different parts of the country or world for that matter is the real payoff.

Seeing the familiar faces, and the choreographed routines we have come to expect, is great. AND it is great to see the random jam element surface. This is a chance for a new player to be paired with a seasoned player. When the music starts we are all equal. When it is over the question is, who got hot? Who developed chemistry? Which teams took advantage of the jamming they may have done in the past, and made it work in a condensed 4 minute routine? This spontaneous element is very important to further our sport. Also it is a chance for some players to jam with partners they would never get the opportunity to do otherwise. This can be the thrill of a lifetime and allow someone to break into the sport "overnight".

Our sport is something very sacred to me. It is like an institution. Family, religion, and marriage are things most of us hold above other things in our lives. We are molding this sport on a daily basis. What a great time to be a

Freestyler. We have the chance to promote our sport to those that have not been exposed yet. We have a chance to be immortalized as the grandfathers of our sport. We are the ambassadors of the sport!!! Let's put our best foot forward, be friendly, and OFFER to help others get started. Remember when you had the fever???

What could be better? Travel the world, visit beautiful, exotic places, meet exciting, unusual people, and JAM with them...!!! This author would like to thank his fellow jammers, for the hospitality and spin offered between Hawaii '97 and Seattle '98. On my birthday in Seattle, the night before the prelims, I looked around the room, and a feeling came over me that is hard to explain. It is amazing, but I had been hosted by almost all the players during that year. From Puerto Rico to Jackson Hole, from Jacksonville to Seattle, from Westchester County NY to Baton Rouge, from Austin & Ft. Worth, Texas to Denver, and from Phoenix to San Diego, I had friends in all the right places.

Recently I've been following a different sport. This sport had some problems in the recent past, but has bounced back in this GREAT '98. Who hasn't heard of Babe Ruth, Mickey Mantle, or Roger Maris? Who doesn't know that the sub 4 minute mile was "impossible" until Roger Bannister broke it? Did you know that within 6 months of that record being broken, many others had also done so? The greatest limitations are the ones we put on ourselves because people say it can't be done. Well when the going gets tough, the tough get going. Mantle was going for the record, and Maris ended up with it, because they motivated each other to be at their best. Look at Sosa and McGuire. . . What are the odds of a record standing that long, and then being

# Tournament Roundup

## The 1999 N.E. Indoor Freestyle Championships Holbrook, MA Feb 13, 1999

It seems that freestyle tournaments in New England have been like that crazy aunt (or uncle) down in the basement, you know she's there, but don't talk about her very much. Well, lately with tournaments like Narragansett '98 and now, The 1999 New England Indoor Freestyle Championships, New England is hosting some very hot tournaments, with excellent participation.

Again this year, Steve Scannell took the reins and expanded the tournament from what had previously been known as "The Expression Session." In the spirit of freestyle promotion, Steve was able to get Holbrook High School, in Holbrook, MA (just south of Boston) to sponsor the event. This turned out to be a great way to expose freestyle to several hundred youth and family oriented spectators. The crowd showed their appreciation for all the routines with lots of applause, but they especially appreciated the fact that youth is represented well in freestyle, specifically the Ross's and Titcomb's.

### The Judging:

Steve was able to get some knowledgeable local freestylers who did not compete to do the judging: Glenn Stockwell, Mark Ide, Cliff Raskind, Jack Olson, and Richie Regensberg. Judging was done by ranking. The judging sheets had five categories to help evaluate the routines: difficulty, variety, execution, presentation, and comments. In addition, ranks were added, the lowest reflecting the best score. Also on the judging table was the legendary Joe "Lick Me" Proud, who ran the music.

### Round One: Individual

One trademark of New England tournaments lately, has been the inclusion of individual freestyle competition. Here self setting is obviously necessary and PC. It also doesn't come as a big surprise that freestylers who consistently place high in this event are those that have to practice by themselves, mostly out of necessity, because they lack the availability of other jammers where they live.

(90 seconds)

- 1st: Scott Sailor
- 2nd: Paul Kenny
- 3rd: (tie) Todd Brodeur
- 3rd: (tie) Steve Scannell
- 5th: Rick Williams
- 6th: Nikki Ross
- 7th: Jason Southwick

### Round Two: Open Pairs.

Everyone watching this event was treated to some hot routines. It was all there: presentation, choreography, difficulty, energy and good vibes. Seeding was done on the basis of FPA ranking, except that defending champs Scott Sailor and Brad Keller played last. (4 minutes)

**1st: Paul Kenny & Toddy Brodeur (7 pts)** On the heels of their Seattle South Park routine (sans Pipo Lopez), Paul & Toddy have the energy, pres and moves to impress. Toddy has turned into a presentation monster. Add in Paul's hein turnovers and you've got a first place finish.

### 2nd: Brad Keller & Scott Sailor

**(13 pts)** Defending last year's win in this group was a tough task, but Brad and Scott wooed the judges with creative presentation and two discs, to get second place.

### 3rd: Rob Fried & Doug E. Fresh

**(15 pts)** What can you say. These guys are major veterans and you just love to see them out there doing their thing. Can you say smooth and chemistry. They make it look easy.

### 4th: Petri Isola & Alan Caplin

**(16 pts)** These guys had the intensity and vibe to get the audience involved. They had several cool co-op sequences with against moves, foot brushes and restricted catches off the other's sets, plus some hot indie moves, including Petri's double spinning gitis.

### 5th: Steve Scannell & Rick

**Williams (24 pts)** Another pair of veterans. We're talkin' a whole lotta freestyle years here. These guys did a nice repeat of their Seattle routine, including that nice two disc intro. Watch out for these guys in the Grandmasters division at the upcoming Masters.

### 6th: Carl Emerson & Jason

**Southwick (33 pts)** Carl and Jason attempted some interesting presentation, including trying to light the disc

## RANDOM Zs

Larry Imperiale spreading the Jam at The 10th Annual International Cultural Games Festival, Melbourne, Australia, December 1998

### GOT TO RECOGNIZE:

- The Titcomb Foundation for donating \$500 to fund the Jorgenson/Coddington Award this year. (The Award created by Leroy Hanneman)
- Jay Moldenauer for coping and mailing the FPA Forum.
- Dave Murphy for picking up the FPA mail monthly.
- Chrissy for the new FPA disc design and Bob Boulware for helping with graphics.
- Dan Magallanese as a platinum member!

### FPA ELECTION RESULTS

#### Paul Kenny:

Director

on fire, literally, in the middle of the routine, with a lighter. They unfortunately couldn't get the disc on fire. Nice idea though.

## 7th: Ricky Ross & Nikki Ross

**(34 pts)** Ricky & Nikki just missed 6th place with a new routine, that I'm sure will be fine-tuned and perfected by Santa Cruz. In spite of the rough edges, Nikki always has the crowd in her pocket.

## 8th: Xtehn Titcomb & Zahren

**Titcomb (38 pts)** The future of the sport here. These two are like freestyle sponges, soaking up new moves daily. They're also no slouches as far as presentation goes. The potential here is unlimited, and it's nice to have these two in the freestyle family.

After the open pairs competition the Ross Family, Richy, Nikki and Deanna, performed a special co-op routine that wowed the audience. The Ross Family continues to build an ever growing number of die hard fans, old and new, and I can think of no better way to promote the sport than having the Ross family perform for the public.

Finally with the pressure off, a final random co-op round was held. Don't worry, be happy and go for your hardest stuff. (4 minutes)

## Random Co-op Results

- 1st: Todd Brodeur/Carl Emerson/Jason S.
- 2nd: Scott Sailor/Petri Isola/Steve Scannell
- 3rd: Doug E. Fresh/Rick Williams/Zahren T.
- 4th: Alan Caplin/Rob Fried/Xtehn Titcomb
- 5th: Brad Keller/Paul Kenny/Chris DePaola

Final note: Thanks to Jens Velazquez for making it to the party at the Chateau de Lac.

*Seymour Trixx* ●

## Winter Time Open Pasadena, CA February 14, 1999

I bet you've been wondering about the results of the Wintertime Open Freestyle Finals? Well, wonder no further. . . here is a cut and dry account of the action that occurred on Sunday Feb. 14th.

Rain wasn't in consideration this year, but the landscaping conditions were (as always). The challenge of the pothole infested field and the swirling winds are what the Wintertime Open reality is!

The competitive teams quickly dwindled from nine teams to the "final four".

Ousted early were (note: not listed in finishing order): Dan Roddick and Christopher Horn, Tam Wolfe, Cliff Towne and Danny Evans, Peter Albers and Conrad Damon, Scott Riley and Shawn Sinclair, Judy Robbins, Jacob Gauthier and Matt Gauthier

The following four were the culminating teams in this Valentines Day festivities:

Dan Yarnell and Jamie Chantilles played strongly to take fourth place. The two choreographed an extensive double disc routine. Jamie pleased the crowd with many of his roll combinations and Dan peeled out despite the funky winds and pot holes in the grass. One particular move that Dan

pulled off that made me hoot, was a turn-over upside down skid under the leg to Jamie for the finish. It was sweet! Unfortunately, the team left too much on the ground during the 5 minute finals which prevented them from busting into the top spots.

Unbeknownst to all judges, a surprise tie for second place was about to unfold. Who needs a third place!!! Rick Sader and Danny Cameranesi revamped their masters World Championship routine which combined tightly woven coops that included some double disc work. Danny played with the go-get-it attitude as he always does. His roll set-ups and big flying catch finishes seemed to please the spectators. As a great compliment, Rick pulled out his usual smooth against the spin consecutive pulls to various contorted catches (i.e. nice roll into a big monster catch [ a.k.a. Shemingitis if you're from the east coast ] ). Rick and Danny's finish scored only 2 one-hundredth of a point higher in one of the three judging categories to tie them with our next Valentine's Day team.

Amy Bekken and Dave Schiller (now known as Mr. and Mrs.!) performed their intricate choreographed routine.

As always, Dave shreds out difficult consecutive combinations. I particularly liked his individual combination followed by an attempted neurons into a one-handed cartwheel . . .too bad it didn't come off cleanly. Of course, Dave's performance was accented by Amy's flowing style. Her ability to hit several crucial endings to long coops has been paramount to the cohesiveness of their routines.

Even though Dave and Amy started out very strong, there was a

solid streak of brain/disc meltdown in the middle. Rick and Danny also experienced this. Thereby both teams opened the door for another solid routine.

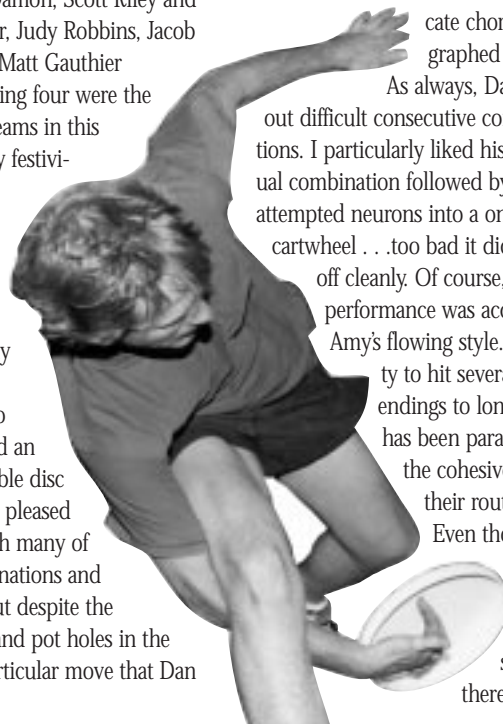

The first place team has proven time and again their competitive skills. "Dave to the second power," couldn't keep the disc from rocking and rolling through high difficulty, smooth and consecutive combinations, as well as energy, energy energy!!!! These two can rev a crowd into a frenzy with the high flying antics of Dave Murphy's gymnastic prowess and Dave Lewis' constricted pull combinations. Even though I did hear a campaign for wanting a four minute routine as opposed to a five minute prior to the finals, Murphy didn't seem to mind the extensive jam time. It also didn't seem to negatively impact their results. Clearly these two out shredded the field and deserved their first place finish.

This competition is an annual come-out-of-the-winter-doldrums and dust-off-your-nails event. Even though the Wintertime Open isn't your premiere location for freestyle, all players seem to take this in stride and make the best of the conditions. Hopefully, in years to come (and maybe a letter campaign to tourney director Mark Horn), there will be a reconsideration of the site for freestyle. There could be a definite resurgence of teams if this actually came to fruition. But in the meantime, have a good jam until the next event!

## The final four:

- 1st: Dave Lewis/Dave Murphy
- 2nd: Amy Bekken/Dave Schiller (Tie)
- 2nd: Danny Cameranesi/Rick Sader (Tie)
- 4th: Jamie Chantilles/Dan Yarnell

*Judy Robins* ●

## The 1999 US Indoor Freestyle Championships Jackson Hole, WY March 6 & 7, 1999

The 2nd annual US Indoor Championships was held March 6 and 7 in Jackson Hole, Wyoming. Skiers/Jammers came from all over to enjoy the snow and natural beauty that characterizes Jackson in the winter. The apres ski gym jams were sizzling and inspired, unexpectedly energized for the high-altitude environment.

For Rob, Doug E, and I, the tournament started February 27/28 with an awesome dose of the String Cheese Incident. I can't believe no one else took advantage of the sweet timing. The shows were inspirational to say the least.

More of the gang trickled in on Tuesday, Wednesday, and Thursday nights, and by Friday night everybody had arrived with, incredibly, no Jackson-related weather delays. The skiing/boarding was soft all week, with 2-4" snow about every day. Even so, Saturday dawned clear and 14 of us opted for the hot spring near Yellowstone National Park. Some saw the coyotes spook a couple, a hundred yards ahead of us on the hike in. Most saw the eagles that buzzed us during the soak. The healing waters brought out the good vibe jams Saturday night. The 7 open teams and 2 mixed teams were randomly seeded for round one. The results were:

### Open

- 1st: Randy Silvey/Dan Yarnell (22.6)
- 2nd: Joel Rogers/Jamie Chantilles (21.9)
- 3rd: Mikey Reid/Jonathan Willett (19.7)
- 4th: Rob Fried/Doug E Fresh (19.05)
- 5th: Tommy Leitner/Larry Imperiale (17.9)
- 15th: Billy Caplin/Fernando Dierito (17.9)
- 7th: Mary Jorgenson/Lisa Hunrichs (15.9)

### Mixed

- 1st: Mary Jorgenson/Joel Rogers (17.9)
- 2nd: Lisa Hunrichs/Rob Fried (17.5)

The mixed division fully surpassed my expectations as both pairs capitalized on the peel/shred energy in the crowd and fully ripped in the semis. It's amazing what happens when there's no pressure.

Storm clouds moved back in Saturday night to release another 4" to keep it soft on Sunday. Lots of players used the ski lifts on Sunday, including Mary J, Z and Laerbs. I hear Tommy even got up on skis this trip.

The gym filled early though, with lots of players looking to spend some quality time jamming. Shortly after 6, the open division began. The scores from 3rd-7th were separated by about a drop in one of the tightest scoring rounds I've ever seen. However, there was one team that completely shredded, and they won by a big margin. Silvey/Yarnell put on a ripping jam, catching 80% and winning Risk and Vibe as well. Winning Execution by catching 82% were overachievers and 2nd place finisher's Billy Caplin/Fernando Dierito. I can say overachievers because I had to talk Billy in to playing. Seriously, these guys came out and shredded, which is what it's all about. Nearly winning

Risk was Tommy/Larry. Although they only caught 60%, their extreme Risk was rewarded as they edged the rest of the field for third.

- 1st: Randy/Dan (23.37)
- 2nd: Billy/Fernando (21.225)
- 3rd: Tommy/Larry (20.06)
- 4th: Joel/Jamie (19.60)
- 5th: Mikey/Jonathan (19.55)
- 6th: Rob/Doug E (19.51)
- 7th: Mary/Lisa (19.46)

Teams came out and again went for it again in the hotly contested mixed division. I can't stress enough how good the mixed division was.

- 1st: Rob/Lisa (19.9)
- 2nd: Mary/Joel (19.6)

In 1st, 2nd, 3rd, and 4th place of the Paul Kenny Funkiest Turnover award was Joel Rogers. If he can tell you the names of all those turnovers he ripped, it would be a miracle. The off-the-roller behind the back was memorable.

Although the results aren't the most significant part of this tournament, they are discussed in full on the Judging Page for those who want in depth analysis/judging system comments.

By 7:15, even guest legend Krae Van Sickle was nailing up for the last

two hours of jam time. The last energy of the weekend got blown off as the gym went into full jam mode. After tournament dinner party was at the JH Brewpub, where the happy energy faded into good-byes.

Kudos to Z, Bob Boulware, and Spencer Weisband who were the judges at the event, and to Joel and Fernando for doing the spread the jam demos on Friday, and to everyone for their excellent jams and vibes. I hope everyone enjoyed seeing their friends and relaxing in the little town of Jackson-hopefully more jammers can come next year and share in the fun.

Mike Reid ●

### *Frisbee on the Rise continued from pg. 2*

broken by McGuire!!!, and then by Sosa 5 days later? Well if they can do it, so can we. So let's go for it.

We need to motivate each other, teach everyone who wants to learn, and raise the bar another notch.

What a great time to be a Freestyler...!!! ZZZZs for everyone. Jambo ●
